V. YOUNG RESEARCHERS - CONDITIONS AND CRITERIA

Article 25

Young researchers must:

- have at least university-level education in the appropriate field and the average grade for all examinations and coursework at undergraduate level (excluding the degree examination) must be at least 8,00 and fulfils the conditions for enrolment in postgraduate studies for the award of academic title;
- have concluded at least level 2 of Bologna study programme in appropriate field and the average grade for all examinations and coursework (excluding the degree examination) must be at least 8.00;
- or has completed a science master's degree;
- or has completed comparably education in foreign university;
- be aged up to 28 years inclusive (with respect to the year of birth); if a young researcher has already enrolled in a postgraduate study programme without financial support from the Agency or ministry responsible for science, the age of the candidates may rise above 28 years, namely, one year shall be added for each study year.

If a young researcher has already enrolled in a postgraduate study programme for the award of academic title or has already completed a science master's degree, the average grade at the undergraduate level is not important.

If a young researcher takes maternity or parental leave - of one year for each child - the age limit shall be increased beyond 28 years by the amount of leave taken. The same shall apply in the case of extended (documented) sick leave of the candidate or absence due to military service.

Young researchers who have already been financed by a young researcher programme but who withdrew from the contract before its expiry or who failed to complete the training programme within
